

ACADEMICS

FITNESS PHYSIOTHERAPY CENTRE is committed to bring the best patient care through espousing pioneered teaching methodologies to make healthcare education more practically relevant. The Higher Education sector has witnessed a tremendous increase in the number of Universities/University level Institutions & Colleges.

Paramedical science is emerging as multi-dimensional branch of service which is filled with great opportunities. It has given way to career opportunities and played an important role in improving the health condition of people. Paramedical courses are job oriented academic programs. It teaches an individual and change them into a competent health care worker. There is an increasing realization of the significance of paramedical personnel in the health sector, particularly in accident and trauma care.

As the medical profession is not just limited to doctors and nurses. There are numerous other helping hands that tirelessly work towards making healthcare more accessible and available. One of the integral elements of the medical circuit is paramedic also called as technicians.

WHY US

- Here at healing hands, we have a patient centric approach .the treatment is done according to the specific needs of the patient.
- The relevant treatment is given and it is ensured that the patient is as comfortable as possible during the course of the treatment.
- The procedure is explained to the patient along with the prognosis of the disease.
- The treatment given is followed according to certain evidence based procedures & protocols ensuring speedy recovery.
- The treatment approach we follow, is a combination of highly advanced modalities along with various hands on techniques and therapies, like, chiropractic, mobilization, myofascial release, structural integration, lumbosacral therapy etc.
- The time of the treatment may vary based on the severity of condition. It depends on the patient needs, patient preference and the stage of ailment.

We thus bring about a complete rehabilitation, and wellness in the patient. Recovery is fast & long lived, without clients highly satisfied with our treatment.
