

Short brief about Institute

Kolkata Kidney Institute provides high quality dialysis in a rehabilitative environment with an emphasis on education and support to CKD (Chronic Kidney Disease) patients and their families.

We, Kolkata kidney Institute, have one branch at Kalikapur EM Bypass. We have bigger expansion plans in the coming years. As the concern for chronic kidney disease is becoming monumental in our society these days, we wanted to give birth to our very own, unique and boutique health-care facility just to cater to this particular segment of patients with chronic kidney disease. Our project is the first of its kind, with an unusual concept of availing a dialysis facility along with an emergency unit.

Normally dialysis is a procedure which is performed in multi-specialty hospitals among many other patients of different medical departments. But dialysis being an over sensitive treatment should be performed with utmost care. So we being subject matter experts, have taken an initiative to provide patients easy and careful dialysis, without any fear of harm or unwanted complications, with special 08 bedded ICU arrangement along dialysis support with each and every ICU in our unit.

Our dialysis unit runs 20 dialysis machines at a time with advanced machine and ultra pure water quality. This state of art unit functions under direct supervision of qualified nephrologist 24x7.

In case of emergency while undergoing dialysis, then the patient can be easily treated in our in-house emergency unit with cutting edge technologies and infrastructure as well as proper facility of ventilator, BiPAP, oxygen, etc. We are also fully equipped to treat the patient in any type of emergency with eminent and renowned doctors for proper support to our patients.

At a glance

- Dedicated kidney care hospital
- 24x7 Renal service under direct supervision of Nephro/urologist
- Ultra pure water quality for dialysis
- Modular operation theatre
- 24x7 ICU backup
- Dialysis facilitates with all ICU beds
- Interventional nephro/uro radiology
- Complete kidney care under single roof
